### TEST REPORT

20-07-2016 No. 6961

**Product name** Amber baby's necklace with push clasps (light shade of cognac, baroque beads)

**Description of the sample:** Polished, cognac color, baroque shape amber beads are strung on synthetic gray cord with knots between the beads. Pressed clasp from plastic. Necklaces weight – 4,1 g, length – 32 cm

**Children age group:**

**applied in testing** under 3 year

**requested age grading** under 3 year

**Client** Laima Skukauskiene, personal code 46008210162, Pilies street 38-3, LT-01123 Vilnius, Lithuania telephone 865049010, email [amberlaima@gmail.com](mailto:amberlaima@gmail.com)

**Manufacturer** Laima Skukauskiene, personal code 46008210162, Pilies street 38-3, LT-01123 Vilnius, Lithuania telephone 865049010, email [amberlaima@gmail.com](mailto:amberlaima@gmail.com)

**Importer**

**Quantity, packaging** 1 sample, without the original packaging

**Sample receiving date, registration** 18-07-2016 No 3434

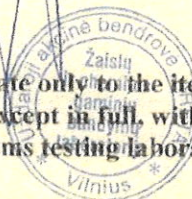

**Date of testing** 20-07-2016

Name of evaluated index	Test method, standard	Results
1	2	3
1. Breakaway feature separation test	LST EN 71-1:2015 8.38, 5.14	At the maximum tensile force of 6,0 N necklace's clasp is undone
2. Tension test (general)	LST EN 71-1:2015 8.4.2.1	Necklaces beads are gripped components, which the largest accessible dimension is greater than 6 mm. Necklace cord is not broken; beads are not separated from the others. Tensile force of 90 N was used

**Conclusions:** Amber baby's necklace with push clasps (light shade of cognac, baroque shaped beads), which was tested according test method, indicated in articles 8.4.2.1, 8.38 of the standard LST EN 71-1:2015, **conforms** to the requirements of the standard LST EN 71-1:2015 indicated in article 5.14 and to the requirements of cord strength
